JOBSEEKERS EXPERIENCES INFORMATION FOR CLIENTS

I'm David. I am really enjoying my time at Cafe Rana. It has built my confidence up with talking to people!

I'm Ian. I was introduced to Elite via Caerphilly job centre; I was keen to pursue job opportunities. I have previous experience of working in a garden centre so I wanted to secure similar work. Initially I agreed to a short term work placement because there were no paid opportunities available. The placement was with Groundwork Caerphilly through their Routes 2life project which was exactly the type of work I wanted. I really enjoyed working with Groundwork; I met new people and learned some new horticultural skills. I like working outdoors and especially love planting and seed sowing. My work placement lasted for 6 weeks. I'm still looking for paid employment but in the meantime I love volunteering for Groundwork.

I'm Matthew. Even though my paid employment contract only lasted 3 months, "It was good working with Elite, I feel more confident with people who I haven't met. I enjoyed learning about going to work.

These people are an example of the committed jobseekers ELITE supported to obtain paid employment and dispels the myth that people with disabilities are unemployable or cannot work to quality standards. Would you like to become a committed, dependable member of staff? If so, contact ELITE and join the growing number of satisfied people working with our organisation.
