

Regional SEN Transition to Employment Initiative

Real Opportunities *project*

Peer Mentors

Within the Real Opportunities Project, Elite will be recruiting and training Peer Mentors. A peer mentor will work alongside a young person with disabilities during their supported work experience or part time employment. The peer mentor will be of similar age to the young person and will support the young person by providing tailored one to one training and support to assist the young person to complete their tasks. The peer mentor will also support the young person with other work related

aspects of work. It is beneficial to both the young person and the peer mentor to access a unique learning opportunity that enables them both to develop long term vocational aspirations that reflect their experiences and interests.

INVESTOR IN PEOPLE
